

OHIO VALLEY FOUNDATION®

Founded in 1946 by John Rowe, John Washington, and William McGrath: the Ohio Valley Foundation® is an independent foundation dedicated to the programming and giving of grants to other non-profit organizations - charitable and/or educational organizations - whose impact is focused on, but not limited to, equipment, technology, and capital improvement projects in the Greater Cincinnati Community.

76 years into the future, the foundation continues to actively seek ideas for funding through its LOI process, which opens every year on October 1st.

To this day, the Ohio Valley Foundation® Grant Application Process maintains its commitment to provide relevant assistance to worthy organizations in the area.

The images shown in this page serve as example of the impact the Ohio Valley Foundation® has had over its last ten (10) years of service.
