

Fifth Third TrakMate™

Easily track and manage leased assets throughout their life cycle.

Tracking and managing your company's equipment can be cumbersome, time consuming and a drain on multiple resources. With Fifth Third TrakMate™, you can track all your equipment in one place for increased visibility and more streamlined processes and data accuracy. TrakMate™ delivers a complete technology life cycle solution to help you maximize your asset utilization while reducing costs.

Effectively Manage Equipment

TrakMate™ is an industry-leading, cloud-based platform, and your go-to source for tracking and managing assets, including leases, system integration and dispositions.

TrakMate™ Benefits:

- Manages leases across multiple vendors and systems
- Tracks equipment real time 24/7 based on location, serial number and most importantly the maturity date
- Improves inventory management and visibility across the organization
- Improves forecasting and budgeting
- Decreases costs and helps achieve optimal ROI

Easy Integration

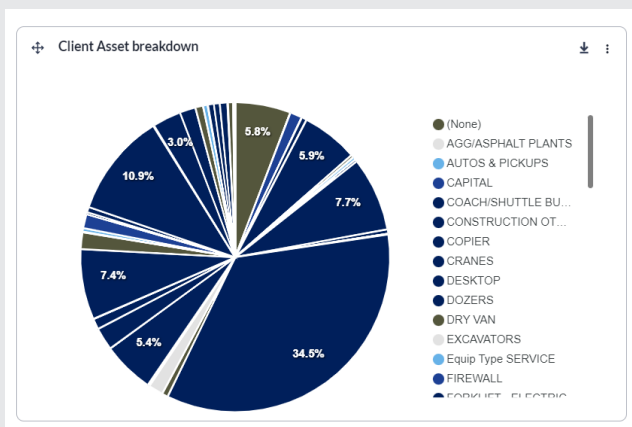

TrakMate™ syncs with systems of leading manufacturers such as ServiceNow, SolarWinds and more. It intelligently integrates with your existing IT systems using APIs to fill in process and data gaps.

- Custom integrations available for your unique needs
- Low-impact integration
- Automated data sync
- Seamless data exchange
- Pre-defined widgets
- Streamlined processes

Greater Visibility

Gain global visibility into your network infrastructure from the moment you log in. Customize your dashboard to display the most critical information.

- A holistic view of your install base, including assets, contracts, etc.
- Search by serial number, location, maturity date, rent, etc
- Track assets, invoices and cost centers linked to a specific lease number
- Manage equipment classifications and data from multiple manufacturers
